Responsibilities : Involved in all phases of SDLC / Involved in client discussions / Architectural decisions / Worked as module lead / Xaml lead and senior developer / Involved in creating MVVM design pattern / Involved in Creating UI ,Animations, Templates , Styles , User Controls , Custom Controls,Theming, MVVM.

Roche

Development Tool (IDE) : Visual Studio 2015, Microsoft Expression Blend

Frameworks : NET Framework 4.6

Programming Language : C#,WPF, MVVM, PRISM

Database : SQL Server 2012

Role : Development and Design

Responsibilities : Created UI framework in XAML / Involved development discussions for Modules / Creating Behaviors, dependency properties , Animations, Templates , Styles , User Controls , Custom Controls, Theming / Creating reports using PDFSharp and MigraDoc for Dissection , Calibration / Handling of Localization and Globalization resources for almost 21 languages Bug fixing and Unit testing using Microsoft Testing Framework

Trupanion

Development Tool (IDE) : Visual Studio 2013, Microsoft Expression Blend 4.0

Frameworks : NET Framework 4.5

Programming Language : C#,WPF, Telerik controls, MVVM Light,

Database : SQL Server 2012

Role : Development and Design

Description: It is an application developed for maintaining pet policy medical records. We have almost covered most modules like Pet Review, Hospital contacts, Owner Contacts, Attach documents, Verify received information, Create paw prints etc.

Responsibilities: Created UI framework / Involved in client discussions, architectural decisions / Worked as module lead, xaml lead and senior developer / Created MVVM design pattern / Created Behaviors, dependency properties ,

Animations, Templates , Styles , User Controls , Custom Controls, Theming

App Treasure Online Examination (Product)

Development Tool (IDE) : Visual Studio 2010, Microsoft Expression Blend 4.0

Frameworks : NET Framework 4.0

Programming Language : C#,WPF,Silverlight 5.0 (OOB), Infragistics,

Database : SQL CE , SQL

Role : Development and Design

Description : It is a product developed for desktop as well as web (offline version) application. It is used for examinations in organizations, college, campus interviews etc. It has very broad scope and it works in offline mode as well. Lot of good features implemented.

Responsibilities : Involved in all phases of SDLC. / Involved in client discussions, architectural decisions / Worked as module lead, xaml lead and senior developer / Involved in creating MVVM design pattern / Involved in Creating UI ,Animations, Templates , Styles , User Controls , Custom Controls, Theming, MVVM

eBenefitSync (Product)

Development Tool (IDE) : Visual Studio 2010,2012, Microsoft Expression Blend 4.0

Frameworks : NET Framework 4.0/ 4.5

Programming Language : Silverlight 4.0 / 5.0 ,C# ,WCF RIA, XAML, Infragistics, PRISM,

Database : Microsoft SQL Server 2008

Role : Development and Design

Description: eBenefitSync enables users to create simplified Templates, Template trees, Packages, Package versions, Benefit Options and final Benefit Offering product for health care insurance industry. It has rich ui which similar to windows OS.

Responsibilities: Involved in client discussions, UI Architectural decisions / XAML LEAD, Creating custom controls, Behaviors / Involved in Creating UI ,Animations, Templates , Styles , User Controls , Custom Controls, Theming, MVVM.

Codeproof Technologies (US)

Development Tool (IDE) : Visual Studio 2010, Microsoft Expression Blend 4.0

Frameworks : NET Framework 4.0

Programming Language : Windows Phone 7 , Silverlight 4.0 / 5.0 ,C# ,WCF, XAML, Telerik ,WPF

Database : Microsoft SQL Server 2008

Role : Development and Design

Description: Codeproof delivers the first ever cloud-based SaaS (Software-as-a-Service) security for mobile devices, including smartphones and tablets. Our security solution is hosted on the Amazon cloud and managed by us directly, providing anytime/anywhere protection against cyber threats. Be it mobile antivirus protection or Mobile Device Management (MDM) – we get you the best mobile security solutions at a very competitive price, without compromising on quality of service.

Responsibilities: Involved in all phases of SDLC. / Involved in Creating UI ,Animations, Templates , Styles , User Controls , Custom Controls, Theming, MVVM / Creating and consuming WCF services. / Involved in writing Unit Test cases using Rhino mock and bug fixing.

ClickSquared

Development Tool (IDE) : Visual Studio 2010, Microsoft Expression Blend 4.0

Frameworks : NET Framework 4.0

Programming Language : Silverlight 4.0 ,C#, WCF RIA, WCF, XAML, Telerik , WPF,MVVM

Database : Microsoft SQL Server 2008

Role : Development and Design

Description:

Cross-Channel Marketing, ClickSquared's new fourth generation marketing platform, consolidates and integrates the enterprise-class features and functionality typically found in stand-alone channel-specific platforms and gives marketers a tightly integrated, easily orchestrated cross-channel marketing and delivery capability. Its Campaign execution product

Responsibilities: Involved in all phases of SDLC. / Involved in Creating UI ,Animations, Templates , Styles , User Controls , Custom Controls, Theming, MVVM / Creating and consuming WCF services. / Involved in writing Unit Test cases using Rhino mock and bug fixing.

Hira Softwares

Development Tool (IDE) : Visual Studio 2010, Microsoft Expression Blend 4.0

Frameworks : NET Framework 4.0

Programming Language : Silverlight 4.0 ,C#, Linq to SQL, WCF, XAML, Telerik Charting , WPF,MVVM

Database : Microsoft SQL Server 2008

Role : Development and Design

Description: It's a application where user can see the sales dashboard by using different parameters. It's a RIA with animated user interface. There are lot of customizable charts and graphs. By which end can analyze or visualize data.

Responsibilities: Involved in all phases of SDLC. / Involved in Creating UI ,Animations, Templates , Styles , User Controls , Custom Controls, Theming, MVVM / Creating and consuming WCF services. / Involved in Unit Testing and bug fixing

Wolter Kluwers

Development Tool (IDE) : Visual Studio 2010, Microsoft Expression Blend 4.0

Frameworks : NET Framework 4.0

Programming Language : Silverlight 4.0 ,C#, WCF, XAML, Telerik , WPF

Database : Microsoft SQL Server 2008

Role : Development and Design

Description:Document central provides solution to wolter kluwer for uploading documents for their internal application. Its software with Rich GUI. User can upload any type of document by drag drop. Also provided docable feature. No Resolution Limit.

Responsibilities: Involved in all phases of requirements analysis and design. / Involved in Creating Animations, Templates , Styles , User Controls , Custom Controls / Consuming WCF services and MVVM , bind data to controls with binding. / Involved in Unit Testing and bug fixing

VNOC Symphony

Development Tool (IDE) : Visual Studio 2008, Microsoft Expression Blend 2.0,3.0

Frameworks : NET Framework 3.5

Programming Language : Silverlight 2.0, 3.0 ,C#, WCF, XAML,

Database : Microsoft SQL Server 2008

Role : Development and Design

Description: VNOC Symphony platform automates, simplifies, and improves scheduling, framing, monitoring, trouble ticketing, ad hoc calling, and a host of other issues around managing video network infrastructure and enabling enterprise video. The system allows easy scheduling of conferencing resources from an animated Microsoft Silverlight interface.

Responsibilities: Involved in all phases of requirements analysis and design. / Involved in Creating Animations, Templates , Styles , User Controls , Custom Controls / Consuming WCF services and bind data to controls with binding. / White labeling , Branding etc / Involved in Unit Testing and bug fixing

Fotolia Word AddIn

Development Tool (IDE) : Visual Studio 2008, Microsoft Expression Blend

Frameworks : NET Framework 3.5

Programming Language : WPF ,C#, XAML

Database : Microsoft SQL Server 2008

Role : Development and Design

Description: Fotolia Word AddIn is a add-in for word through which we can download or search and add images to the word file. It provides options to user for add, search ,buy images online.

Responsibilities: Involved in UI design and implementation. / Involved in Creating Animations, Templates,Styles,UserControls,Custom Controls. / Involved in Creating Animated validations. / Involved in Unit Testing and bug fixing.
